

Endangered Species Protection Bulletin

Application Month: September 2026

Product: STRYAX HERBICIDE (264-1241) "KHNP0090 Herbicide"

- 1** Areas where pesticide use must be limited are identified on the map. A legend is located beside the map to help pinpoint these locations.

Legend

- 2** Look below at the Pesticide Use Limitation Summary Table. This table lists the user selected Active Ingredient(s) (AIs) or Product(s) with pesticide use limitations on the printed map. Locate the Active Ingredient (AI) or Product you intend to apply in this table and identify the code in the last column. This code indicates the specific limitation associated with that AI or Product. A limitation description for each code can be found below in the Codes and Limitations Table. If multiple Pesticide Use Limitation Areas (PULAs) are visible on the map, these tables provide information for the highlighted PULA.

If you are applying a pesticide that contains more than one Active Ingredient, or multiple Products, then multiple codes may apply. Follow the limitations for all codes when using this pesticide.
